Annexes A-D have been submitted, and State, CIA, DIA and NSA have been requested to prepare by 9 April summary reports on their information handling activities as Annexes E-H.

In addition Mr. Bross recommends that there be forwarded separately, as Attachment B to the Memorandum for the President, more detailed reports by State, CIA, DIA and NSA in support of their summaries which are to be submitted by 16 April. It is also anticipated that a more comprehensive report on training and on COINS will be included in Attachment B.

Item 5 Memorandum to Holders of NIE 11-1-67, "Soviet Space Program"
 BNE draft coordinated with USIB Representatives for USIB approval;
 Sponsor - Mr. Abbot Smith

This memorandum was removed from the agenda last week in order for BNE and the USIB Representatives to discuss a point raised by DIA. Subsequently, on 1 April new Conclusions and new pages 5, 12 and 16 were issued. The Memorandum updated the March 1967 estimate and considers the timing of significant undertakings in the manned space program with particular emphasis on the manned lunar landing.

Item 6 Memorandum to Holders of NIE 13-8-67, "Communist China's Strategic Weapons Program"
 BNE draft coordinated with USIB Representatives for USIB approval;
 Sponsor - Mr. Abbot Smith

When the USIB Representatives met on the terms of reference for NIE 13-8-68 it was unanimously agreed that the estimate (originally scheduled for April) should be postponed pending the acquisition of more definitive information on the status of the Chinese ICBM program. It was agreed that in the interim this Memorandum to Holders of NIE 13-8-67 be prepared giving a brief preliminary assessment of recent developments in China's strategic weapons program. There were no significant disagreements in the coordination of this item and BNE does not anticipate any particular problems at USIB.
